POWERNAIL	TECHNICAL BULLETIN 09/2017 #12

Subject:	Revised 50P Top Loading Channel Assembly (Channel, Foot Kit, Nail Pusher)

Models:	All Models (50P, 50PFlex, 50P PowerRoller)

Powernail has revised the 50P nail channel assembly which consists of our new foot kit, a new nail pusher, and top loading nail channel. The revised top loading nail channel assembly will fit all 50P models. These revisions make the Powernail 50P nailers easier to use, along with reliable performance.

The Following Parts Listed are for complete assemblies, individual parts are available from our Web-Site www.powernail.com

Nail Channel Assembly (Top Load) Includes: Channel, Foot Kit, Nail Pusher Assembly	Item # A-16	P/N 09-50P3056A	
Nail Pusher Assembly (Top Load Channel) Includes: Nail pusher, Pusher Plate, Spring, 2-Spools, Bushing, Knob, Mounting Screws	Item # A-15	P/N 09-50P3050A

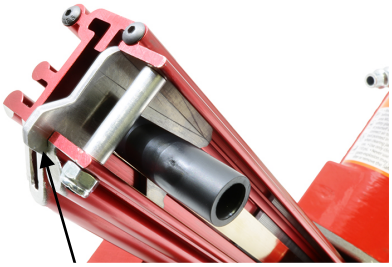
LOADING THE TOP LOAD CHANNEL

1.)



Pull pusher knob towards rear of channel and lock in place.

2.)

Insert cleats into top feed slot

3.)

Gently release pusher from locked position and guide it to the end of the cleat strip.
